

Swapan Kumar Saha

Mr Swapan Kumar Saha, a life member of the Indian Ceramic Society, was born on 11th January, 1956. He obtained diploma in Civil Engineering in the year 1980 and joined CSIR-CG&CRI on 18th May, 1983. He further enhanced his academic qualification and obtained BE and ME degrees in Civil Engineering from Jadavpur University in 1997 and 1999 respectively. After serving in different capacities at the Institute at present he is the Senior Superintending Engineer and Head of Engineering Services Division of CSIR-CG&CRI, which comprises of Civil and Electrical Sections. During his service he undertook many challenging jobs like total up gradation, addition of new facilities and renovation of existing facilities of CG&CRI to transform this into a state-of-art facility. He is also responsible for expansion and maintenance of two outreach centres of CSIR-CG&CRI, namely Naroda Centre, Ahmedabad and Khurja Centre, Khurja, Uttar Pradesh. Civil Engineering Section obtained the Award for Best Supporting Section of the Institute for the year 2009-2010. In addition, he constructed Common Service Facility-cum Production centre at Thongjao and Nungbee in Manipur where many people do not dare to go. He constructed a big CFC at Panchmura, Bankura, West Bengal.

He is currently a life member of the American Society of Civil Engineers, Materials Research Society of India, Indian Geo-Technical Society and Indian Institute of Ceramics, Chartered Engineer and Fellow of Institution of Engineers (India). He is the General Secretary of Society of Civil Engineers, Jadavpur University.

Currently, he is working as consultant.
